

Complete harmonisation in the production chain

The Pali Group originated from the livestock company Paridaans & Liebrechts in Brabant. Extensive integration of the companies has taken place within the family company since 1959.

Nowadays the Pali Group is also an important producer of veal and (kid) goat meat with markets within and outside Europe in addition to being a modern internationally operating livestock trading organisation. There is a strongly integrated structure within the group to optimise the total production chain. The Pali Group, with establishments in the Netherlands, Belgium, Germany, Italy and Spain works within the controlled chain of production with a large number of established clients and stable marketing patterns.

The Pali Group trades on a European level in:

- new-born calves, stock-calves and calves for veal
- young bulls and cows
- piglets, porkers, sows and breeding material
- kids, goats and kids for meat consumption.

Our forte is the production and sale of:

- white and rosé veal
- (kid) goat meat
- suckling piglets
- calf and goat skins (fresh and cured).

PALI GROUP

The companies within the Pali Group have built up an excellent reputation over the years. We trade in a responsible manner and pay much attention to animal welfare.

The personal character of the family concern has not changed during the growth and expansion of our activities. Our lines of communication are still short and we are closely involved with all our clients. Correct and quick administrative and financial settlement speaks for itself. The Pali Group keeps a finger on the pulse in each part of the chain and can give complete and one hundred percent reliable information about the products and production at any given time.

The quality of our activities is guaranteed by several quality marks such as SKV, IKB, KCV, Veewaardig Vervoer (Livestock-friendly Transport), ISO 9001:2000, HACCP, GMP, GVP and BCV. Our working procedures are minutely checked just as our products by independent expert bodies in this field as Lloyd's, SGS/ AgroControl, CBS, VWA and AID.
