

Uniform quality pigs for every customer

Livestock supplied by the Pali Group is well known for its constant quality and uniform weight. The porkers and piglets are exported a lot to other countries in Europe in addition to the enormous sales in the home country.

The Pali Group forms an important link in the chain of production. We meet the strong increasing demand for similar herds of piglets and porkers of a high quality and an excellent bill of health. We offer animals of a high well-balanced standard to pig farmers, merchants and slaughterhouses. We harmonise supply and demand and offer the possibility to negotiate over the supply of breeding material. The Pali Group aims to optimise the general quality and the technical and economic return of all her customers and suppliers.

The Pali Group offers products to order:

- To the breeders the right market and optimum valuation for each quality pork piglet and sow for slaughter.
- To the porker farmer optimum results by supplying quality piglets and the best offer of marketing possibilities for the porkers.
- Regarding the slaughterhouses we ensure a planned supply of pigs of uniform quality in the quantities wanted.

PALI GROUP

The Pali Group has built up an excellent reputation on the international market as a livestock trading organisation since its establishment at the end of the fifties. Our network of contacts with pig farmers, traders, feed producers and slaughterhouses is very extensive. We have an extensive European buying and selling market at our disposal. We offer all our clients expert and personal support. We supervise and advise our clients over the whole sequence of the chain of production so that a high state of animal health can be achieved. An accurate and speedy administrative and financial settlement speaks for itself. The Pali group trades in a responsible way and pays much attention to animal welfare.

Having the KCV certificate (Livestock Certificate of Quality) the Pali Group offers livestock farmers, slaughterhouses, consumer and government guarantees regarding food safety. We work together with leading transporters in possession of the Veewaardig Vervoer certificate (Livestock friendly Transport certificate). Transport is taken care of in extremely modern vehicles so that the well-being and health of the animals is guaranteed. The quality of our activities and products are guaranteed further by marks of quality such as IKB, Q&S and ISO9001:2000.
